📍 Nantes, France

Engineer with international academic and industrial experience in robotics, automation, and electromechanical systems. Familiar with mechanical design, system integration, product validation, and technical troubleshooting. Enjoy working in collaborative environments, reliable and adaptable in learning new technologies, and contributing to practical engineering solutions with attention to quality and continuous improvement.

🎓 EDUCATION

ÉCOLE CENTRALE DE NANTES, MSc
Industrial Engineering Agile Factory
Management (I-ENG AFM)
2024 – 2026

CHENNAI INSTITUTE OF
TECHNOLOGY,
B.E. Mechatronics Engineering
2020 – 2024

🌐 LANGUAGES

TAMIL: Native

ENGLISH: Bilingual

FRENCH: Intermediate

GERMAN: Basic

📜 CERTIFICATIONS

- SOLIDWORKS Expert (CSWE)
- 3DEXPERIENCE Associate (Design, Simulation, PLM, Industry Innovator, Project Planner, Structural Designer, CATIA V5)
- Autodesk Inventor Professional
- Six Sigma White & Yellow Belt
- DriveWorksXpress Associate
- AWS Educate – Generative AI

🏆 RÉCOMPENSES

3DEXPERIENCE Edu Student
Champion 01/03/2023

- demonstrating leadership, technical expertise, and active contribution to the 3DEXPERIENCE academic community.

Encouragement Award -
AAKRUTI 2023 10/03/2023

- Recognized for outstanding engineering innovation and project execution.

SOLIDWORKS Champion
01/12/2021

- Recognized for proficiency and active contribution in CAD design and the SOLIDWORKS community.

🏢 WORK EXPERIENCE

PRODUCTION LINE OPTIMIZATION INTERN

Loiretech

02/2026 – 08/2026 | Nantes, France

- Troubleshoot production inefficiencies and implemented lean manufacturing improvements.
- Developed Gantt schedules to optimize production planning and resource allocation.
- Supported shop-floor and production operations through process monitoring and continuous improvement.

PRODUCT DESIGN ENGINEER INTERN

Impaq Robotics

07/2024 – 08/2024 | Chennai, India

- Designed robotic and electromechanical systems using 2D/3D CAD tools.
- Performed testing, validation, and troubleshooting of mechanical assemblies.
- Created technical documentation, engineering drawings, and PLM records.

PRODUCT DESIGN AND SUPPORT ENGINEER INTERN

Hedvuk Private Limited

10/2022 – 02/2023 | Remote, India

- Supported electric vehicle development through testing and design validation.
- Conducted simulations, GD&T analysis, and root cause investigations.
- Collaborated with manufacturing teams to support product deployment and optimization.

PRODUCT AND DESIGN SUPPORT INTERN

Solinas Integrity Privatte Ltd.

08/2022 – 09/2022 | Chennai, India

- Developed robotic modules, mechanical assemblies, and automation components.
- Performed system testing, troubleshooting, and product validation activities.
- Supported system integration, customer technical issue resolution, and cross-functional engineering teams.

📁 PROJECTS

Academic Projects

- Developed robotic, AMR, and IoT-based automation systems using CAD, testing, and system integration.
- Performed product validation, troubleshooting, and mechanical design optimization.
- Created technical documentation and engineering drawings for robotic applications.

Workplace Projects

- Designed robotic modules and mechanical assemblies using CAD, GD&T, and tolerance analysis.
- Conducted testing, validation, root cause analysis, and 8D problem-solving activities.
- Supported product industrialization, system integration, and cross-functional engineering teams.

★ TECHNICAL EXPERTISE

- | | | |
|----------------------|-------------------------|----------------------------------|
| • SOLIDWORKS | • NX CAD | • GD&T & Tolerance Analysis |
| • CATIA | • Robotics & Automation | • Product Industrialization |
| • Production Support | • System Integration | • Lean Manufacturing |
| • Creo Parametric | • Root Cause Analysis | • DFM (Design for Manufacturing) |
| • MS 365 | • (RCA) | |
